Cycling Improvements – Mary Ann Street, Ultimo

We will soon start work to install a separated cycleway along Mary Ann Street, Ultimo. These works will improve cycling access while increasing community safety and greening of our streets.

Type of work: Installation of a separated cycleway, new pedestrian and cyclist priority crossing, access ramps and garden beds

Start date: Tuesday 2 April 2024

Working hours: 7:30am to 5:30pm - Monday to Friday
7:30am to 3:30pm – Saturday

All works on Mary Ann Street will be completed within three months, weather permitting.

We will work to minimise impacts during this time, however there will be some machinery noise, restrictions to vehicle parking and changes to pedestrian access.

If there is wet weather, our contractors will try to start the work the next day. If unsuitable weather continues, we will update you on any changes to the schedule.

You will still be able to access properties in the street, and we will contact you if we need to temporarily restrict access to progress work.

Thank you for your patience while we complete these important works.
