What to expect during construction work

The City's contractor, Sydney Civil will take steps to minimise potential impacts. However, there will be machinery noise, temporary restrictions to vehicle parking and temporary alternative pedestrian access.

We will also erect temporary fencing and install water-filled barriers to create a safe working area for our construction team and the community.

In the event of wet weather or other delays, work will commence the following day. If unsuitable weather or other delays continues, we will notify of the change in scheduling. Please subscribe to receive email updates.

Sydney Civil will also provide temporary site amenities for our workers nearby. The site amenities will operate from **7am to 6pm Monday to Friday** and **7am to 4pm on Saturdays**. We will notify local residents and businesses if we need to work outside these times to support any required night works.

Laneway and driveway temporary closures

Access to properties will be restricted during our work. Your co-operation in making alternative arrangements where possible will assist us in a swift return to normal conditions. We encourage residents to contact the project team should a temporary parking permit be required.

Traffic controllers will be operating during working hours above to assist access including bin collection. The temporary closure of laneways and driveways will be continuous to allow construction to take place to progress work.
